At Warwick Gates, we pride ourselves in manufacturing quality Australian made products at reasonable prices. Our Quikfence range is designed to save you valuable time and ensure that your money is well spent on quality, long lasting products.

All our posts are pre-drilled for easy hinge attachment ensuring labour costs are reduced while quality is maintained at a very high standard.

We thank all our local and nation-wide customers for their support.

TESTIMONIAL

“We have used every steel assembly on the market, the only product that has ALL you require included in the price is the Quikfence systems, when we order them they come with everything we need except the hole in the ground.

The finished appearance is the best of anything around especially the strainer posts made with angle, they come with caps and can have fully adjustable hinges which makes it very easy to install gateways.”

Mark, Grazier in North Queensland.

quikfence®

'... the only fence posts we buy are the fully drivable Foot Plate End Assembly, these posts are the fastest and the strongest steel end assembly you can buy! The cost of the outlay seems, at the time large, but with the labour saved and the finished look of the product we have never considered any other product since.'

"I say, try them, you'll never regret it."

Jason and Rachel. Farmers Central Coast NSW
